

Stationary Source Division

Presents

Polyester Resin/Fiberglass

Course # 261

This one-day course provides information to air pollution inspectors on the history, use of raw materials, production methods, emission control methods and inspection procedures for polyester resin, fiberglass and boat manufacturing facilities. This course covers pollution prevention, legal requirements, and RACT/BARCT. Upon completion of this course, inspectors will be able to understand what is required of the facility to remain in compliance with the requirements. A field visit to a local facility is included to provide inspection techniques.

Hard Hat, Safety Shoes & Glasses required.

July 22, 2004

**8:30 AM – 5:00 PM
Bay Area AQMD,
7th Floor
939 Ellis Street
San Francisco, CA 94109**
